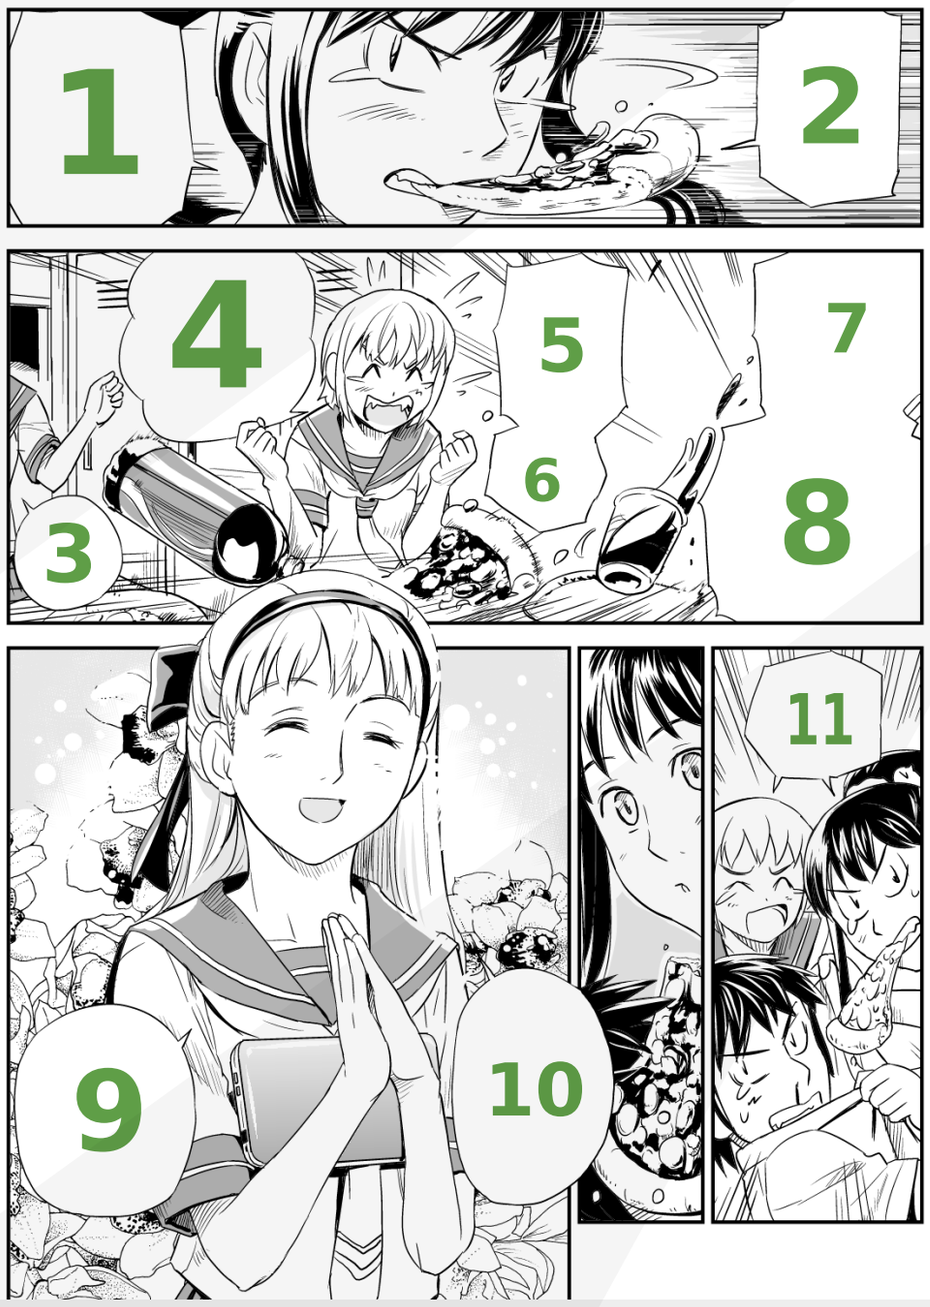
Installfest

This comic is presented in an edited Greek/Roman left-to-right format, in order to improve readability as much as possible. The orientation of the artwork has changed and readers accustomed to "manga-style" right-to-left are encour-aged to download that edition of this comic.

If you prefer readability or simply don't wish to spend time working out something new, please continue. Use the guide on the right to see an example of the reading order that you will be accustomed to if you are from a country that writes in this fashion:



Installfests

A Festival of Free and Open Source Software

Where the experienced students gather...

Try turning off ACPI

It's booting!

...to gently hold the hands of the newcomers with their first install.

Such beauty turns the heart of even the most hardened monopolist.

It was just an embarassing misunderstanding!

It's OK.

Everything's alright now, Akiha.

Mee Too!

Lift your eyes and behold; the new dawn of Ubunchu is now upon us!

CLAP CLAP CLAP

But...

That was just the chief's delusional expectations of the event.

This is reality.

....

We're ready, but where is the fun?

Welcome to the Installfest!

Empty

Perhaps the poster is a bit...

Faithful Disciples!

RMS

buntU

Installfest!

We'll do everything in our power to support your Ubuntu installation!

Syscom Club

It seems perfect to me.

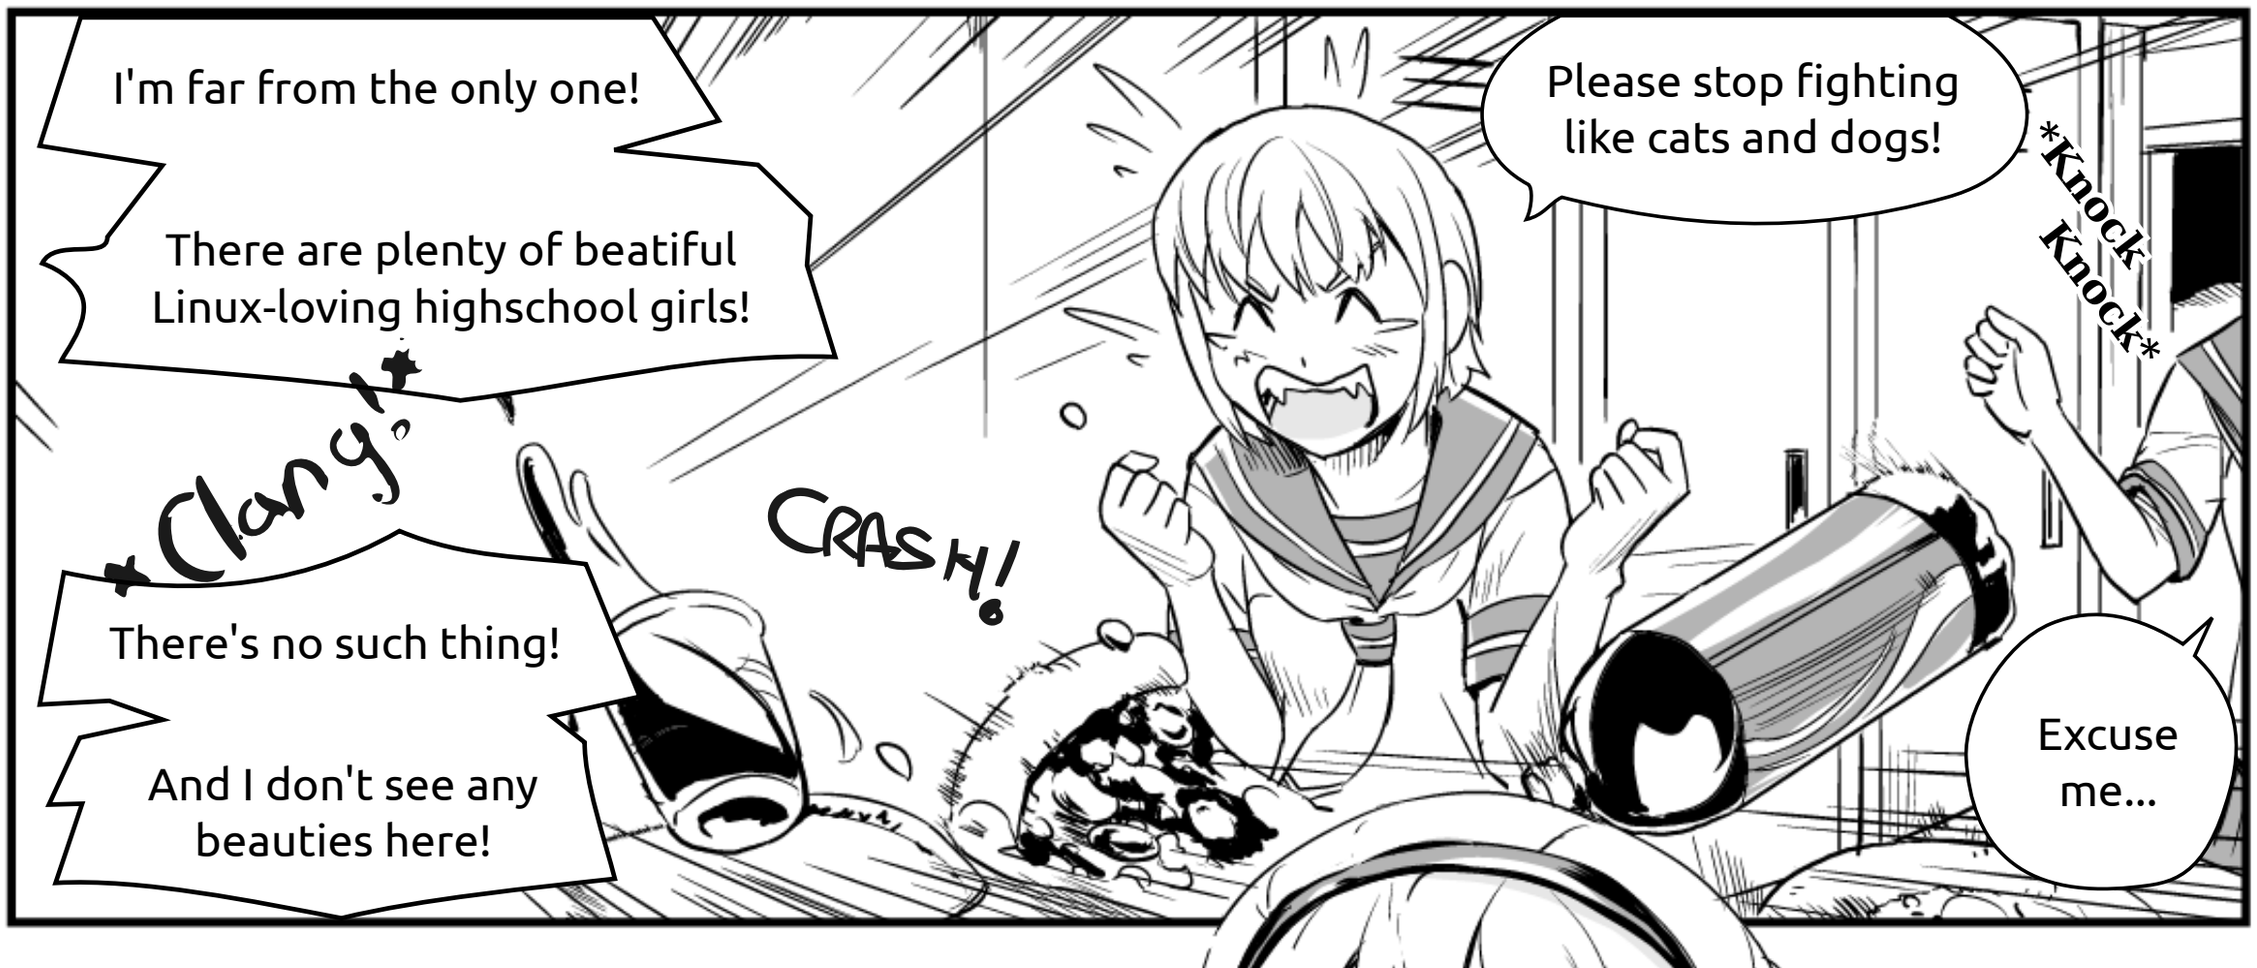
On the contrary, this is the expected outcome

Isn't this proof that everyone's living a healthy life? As opposed to geek girls whose lives revolve around Linux

HA HA HA

GRRR!

Who are you calling a geek?!



I'm far from the only one!
There are plenty of beatiful Linux-loving highschool girls!
Clang!
There's no such thing!
And I don't see any beauties here!
CRASH!
Please stop fighting like cats and dogs!
Knock Knock
Excuse me...

Yes?
Your poster informed me that you could help me install my computer?

Fact Sheet

Yoshinaga Urara
Group: 2D
Height: 161cm
Popularity: High
Club Theatre / Drama

Diva and natural beauty.

Impossible!

Urara,
the drama club diva?!

It seems your google-fu isn't what it ought to be

No way she's a Linux fanatic!

It's not in my fact sheet on her.
It's just not possible!

My dear father gave me this netbook

Windows 7
Home Premium

I understand

But I can't bear my father's taste in operating systems!

I'm so ashamed to be so ungrateful!

moved

I understand your feelings exactly.

But the USB port is broken and now I don't know what to do!

Leave it to me!

One of the strong points of Ubunchu

Is the many ways of installing it

DVD

CD

USB

SD

Optical media, Flash disks

Network

Or if you can't use external media

You can even boot the installer over the network!

Just a minute

We'll have it installed in a jiffy!

Thank you very much!

Don't let your guard down, Akane

whisper

Would you please stay away? Your weak google-fu might be contagious

There's no way this is what it seems

It might be a plot by the comp-sci club!

Hah!

You just don't get it, do you?

Look at how innocent she is,

Trying to find the way of Ubunchu contrary to her father's wishes.

Uncorrupted by monopolists like you and Akiha

Your possessions are my possessions! How prejudiced can you be?!

Just gaze upon her angelic smile and you'll understand!

Miss club president, this

U

buntu

Windows7 Ultimate

Is what you mean by U, is it not?

I can't stand having to use inferior versions

So she's the naive type of innocent then? Now I get it!

I can't believe it!

Ubuntu 10.04

For someone to use a free operating in this wealthy country...

You must have fallen on hard times

Here, you can have my copy...

sympathy

She doesn't seem like a bad person...

Windows 7 Ultimate

Thank you for the sympathy, but...

I will ask father to buy me a new netbook,

Take care!

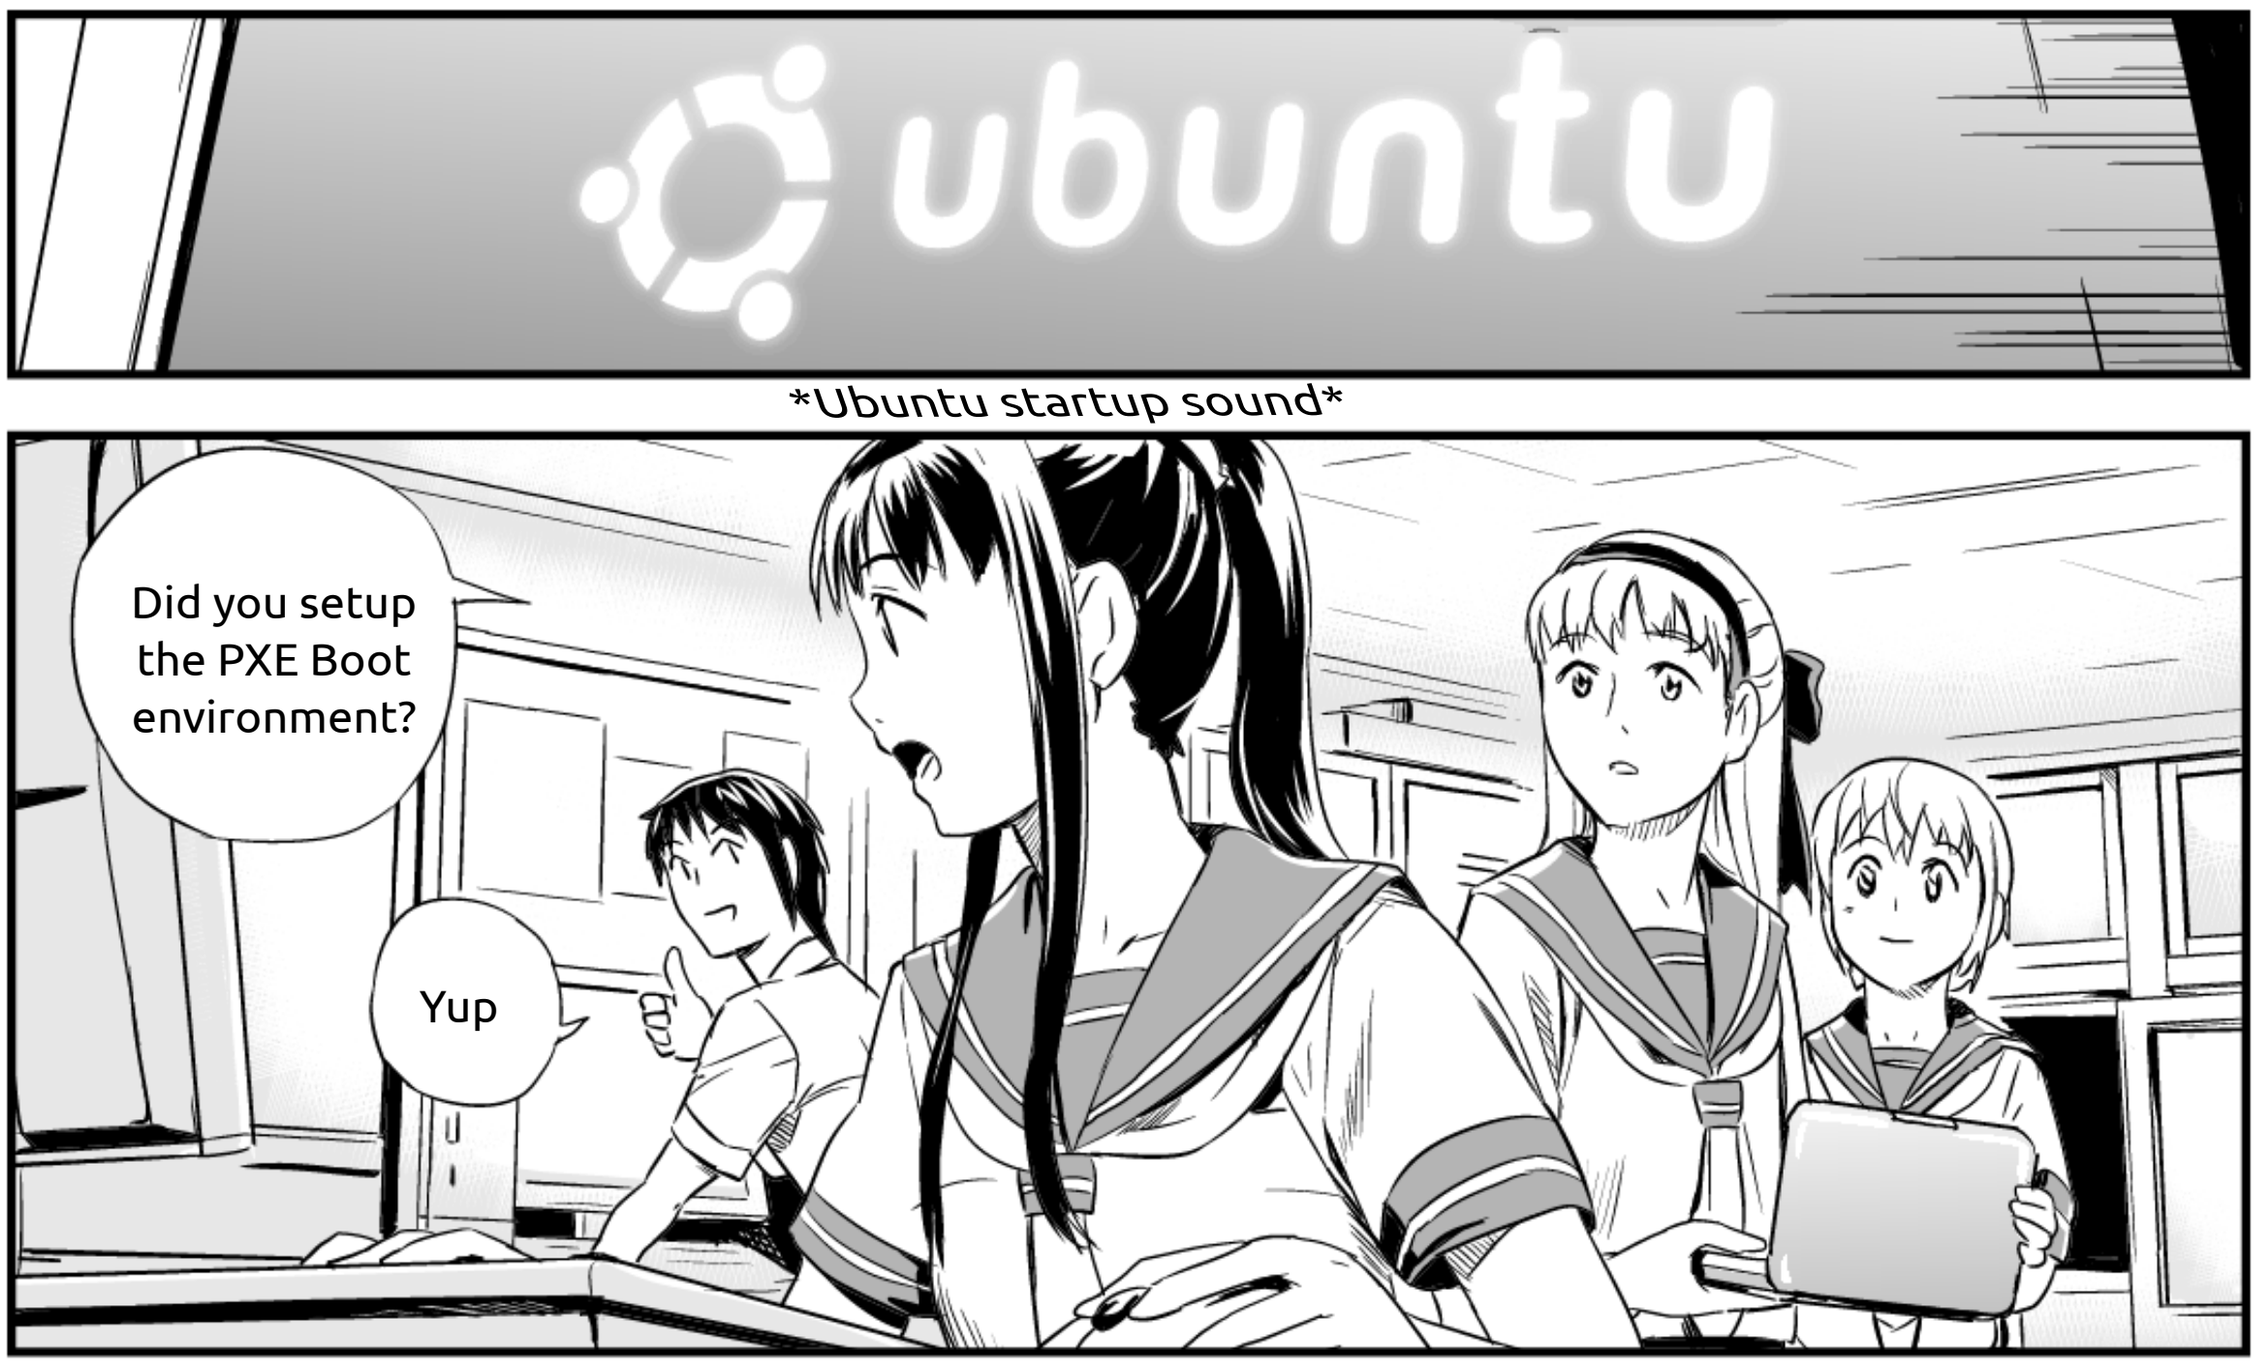
Now just wait a minute!

turn

We can't just let a broken laptop walk out of the sysadmin club!

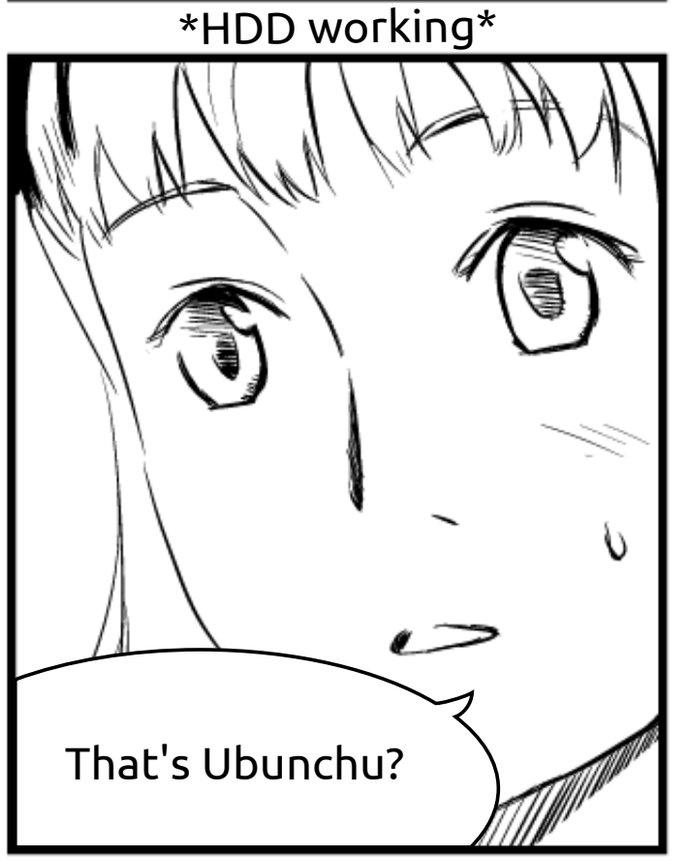
I'll show you

The true power of a free OS!

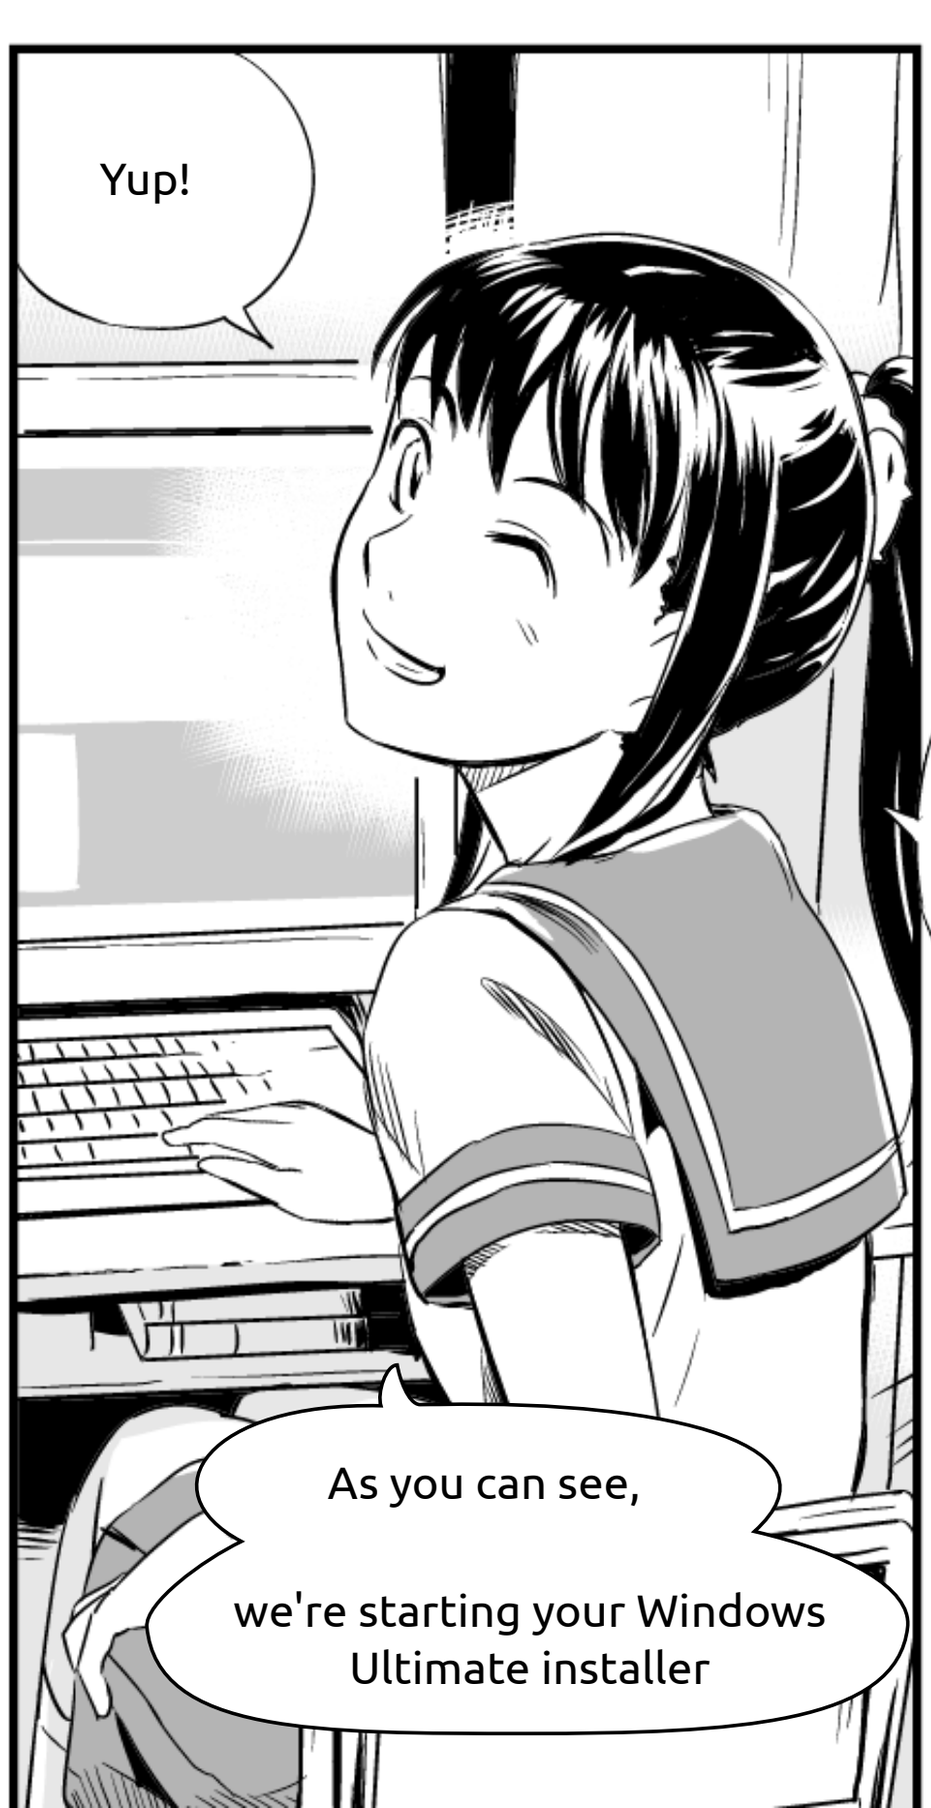


ubuntu
Ubuntu startup sound
Did you setup the PXE Boot environment?
Yup

HDD working



That's Ubunchu?



Yup!
As you can see,
we're starting your Windows Ultimate installer

Using Ubunchu Here we go!
shlink
With a "click"

Windows 7 installation

Windows 7

Installing Windows ...

Ubunchu Netboot!

snapping the lid shut

Thank you so much!

I will take great care using it from now on!

Let's celebrate our first install!

Even if it was another OS...

Can I have this?

You're welcome!

I know I'm asking for too much, but

Ubunchu

Ubuntu 10.04

I want to try it out at home

You can always count on us for support Miss Madonna!

...and that's How our first installfest went down

Installation numbers for Japan:
Windows 7: 1
Ubuntu 9.10: 1?!

The End.

It wasn't much, but at least we got a little result

It's a first step, prez!
